

H₂gro Greywater for Gardens

Drought-Proof Your Garden!

By reusing water from the bathroom & laundry

Easy clean filter.

- Simply rinse with a garden hose nozzle
- No hand contact
- Does not waste water

7 metre head pump

- Will water gardens uphill and downhill
- Pressurised pipe gives even distribution across the garden

Failsafe to sewer

- Will simply go to sewer if the power is off
- No storage of greywater ensures no odour

Installed outside in the ground

- Can be fitted to new slab-on-ground homes
- No risk of spills in the house
- Easy to get at but still unobtrusive

Provides access to the "best" greywater

- Can collect shower & bath water from new slab-on-ground or high set homes

Easy to divert to either garden or sewer

- Only water the garden when needed
- Divert strong cleaning agents to the sewer
- Upgrade to an electric switch and make the selection in the bathroom or the laundry

Unique irrigation pods

- Large flow system will not block (Drippers will not work with greywater)
- Air cavity keeps roots out
- Ensures greywater is dispersed 100mm below the ground
